-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction/Election

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16, 18-20 and 29-30 are drawn to a complement, composition and fusion with said complement.

Group II, claim(s) 17 is drawn to an antibody.

Group III, claim(s) 21-26 are drawn to a nucleic acid, antisense nucleic acid, vector and host cell.

Group IV, claim(s) 27 is drawn to a method of preparing a complement inhibitor.

Group V, claim(s) 28 is drawn to a method of identifying a ligand.

Group VI, claim(s) 32 and 34 are drawn to a method of treating an animal.

Group VII, claim (s) 35 and 37-38 are drawn to a method of vaccinating.

Group VIII, claim(s) 40 is drawn to a method for inhibiting the classical and alternative complement pathways.

2. The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Groups I-III encompass different products and constitute different inventions because the products have different structures and function (the protein, antibody and DNA). The methods of Groups IV-VIII are methods that do not recombinantly make the protein of Group I and represents alternative uses of the protein (as the protein is used in the composition and in the fusion of Group I). Under PCT Rule 13.1 applicant is entitled to the first product, method of using and making said product. Thus, these inventions are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
